Executive Summary

PhD-level organizational leadership executive with **U.S. Army service** and **six years in a U.S. Navy Capstone think tank / high-end R&D environment** (Alset Technologies Group Inc., later appointed CEO; migrated into Nano Light Production Labs). Known for turning complex vision into executable systems-combining operational discipline, automation-first execution, and high-integrity leadership to deliver measurable outcomes across technology, regulated operations, and mission-driven programs.

Executive Financial Highlights - Three Key Engagements

Alset Labs - Nonprofit Founder / President | 2025 - Present

- Founded Alset Labs as a legacy nonprofit advancing technology-enabled collaborations to help humanity evolve and accelerate Mars-aligned outcomes
- Mentored and supported cross-industry doctoral completions across separate institutions - helped **Dr. Carter** finalize and formally achieve “Doctor” status (**July 31**) and supported **Dr. Lan Lu** through completion and graduation (**October 2024**)
- Driving active collaboration planning across **IHBUSA** and **ASU** (education, engineering, applied systems)

Recovery & Healthcare Operations (Apex / Alpine Villa Homes / Prizm)

- Led digital transformation and growth systems contributing to scaling from **\$0 to ~\$1.2M profit in ~6 months** (Prizm Addiction Recovery)
- Built operational + marketing infrastructure supporting acquisition, retention, and compliant growth
- Executed under high-stakes, regulated conditions

Spa Kings AZ - 10% Owner | 2019 - Present

- Helped scale annual revenue from **~\$0 to \$350K+** through operational improvements, marketing systems, and process discipline
- Supported acquisition integration (4AZ Spa Repair) and service model optimization
- Mentored founder-to-CEO growth; supported expansion into manufacturing initiatives including **SEND Water Innovations**
